PROFESSIONAL SUMMARY

Analytical and detail-oriented Data Analyst with a Master's in Data Analytics (University of Wollongong) and a strong foundation in end-to-end data workflows from raw data ingestion and cleaning to insight generation and executive-level reporting. Proficient in Python (Pandas, NumPy, Scikit-learn), SQL, Power BI, Tableau, and Excel, with hands-on experience building AI-powered analytics applications and production-grade dashboards. Skilled at uncovering patterns in complex datasets, designing KPI frameworks, and translating data findings into clear, actionable business recommendations for non-technical stakeholders. Passionate about building data solutions that drive real decisions not just reports that get filed away.

EDUCATION

Master of Computing - Data Analytics	Jan 2025- Mar 2026
University of Wollongong (SIM GE), Singapore.	Percentage: 72%
Bachelor of Technology - Information Technology	Aug 2019- May 2023
Karpagam College of Engineering, Coimbatore.	CGPA: 8.65

TECHNICAL SKILLS

Programming & Analytics: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL, PostgreSQL)

Data Visualization & BI: Power BI (DAX, Power Query, Data Modeling), Tableau (Calculated Fields, LOD Expressions, Filters), Excel (PivotTables, Power Query, VLOOKUP, INDEX-MATCH, Advanced Charts)

Data Analytics: Exploratory Data Analysis (EDA), Data Cleaning, ETL Pipelines, KPI Reporting, Dashboard Development, Statistical Analysis, A/B Testing, Regression Analysis

Machine Learning: Supervised Learning (Classification, Regression), Unsupervised Learning (Clustering, Segmentation)

Database & Cloud: PostgreSQL, MySQL, AWS (EC2, S3)

Tools & Platforms: Git, Linux, VS Code, Jupyter Notebook, PyCharm, Render, Flask

Soft Skills: Data Storytelling, Problem-Solving, Analytical Thinking, Report Writing

PROJECTS

AI SQL Data Analyst Assistant *Python | Flask | Pandas | SQL | HTML/CSS | JavaScript | Render | [Live Demo](#)*

- Developed a web application that converts natural language questions into SQL queries for self-service data analysis, eliminating the need for SQL expertise among business stakeholders.
- Implemented Excel/CSV dataset upload and processing using Pandas, enabling dynamic SQL query execution on ingested files for code-free, ad-hoc reporting.
- Deployed on Render with cloud hosting and dependency management, achieving a production-ready system with zero manual intervention for routine queries

iPaper – AI-Powered Document Management System *Python | Flask | PostgreSQL | OpenAI API | HTML/CSS | JavaScript | Render | [Live Demo](#)*

- Developed a secure document management system with role-based access control, PDF upload, and in-browser document viewing engineered for enterprise-scale document operations.
- Integrated AI-powered text summarization and topic clustering using LLMs, reducing document review time by enabling intelligent content discovery at scale.
- Designed and maintained a PostgreSQL relational database schema with audit logging, user management, and metadata tracking for compliance-ready access control

Data Visualization Portfolio

Tableau | Excel | Singapore Open Data | [View Dashboards](#)

- Designed 3+ interactive Tableau dashboards using Singapore government open datasets, covering HDB resale price trends (2015–2023) and MRT/bus ridership patterns.
- Applied calculated fields, LOD expressions, and filters to surface actionable insights for urban planning and policy analysis use cases, communicating complex spatial and temporal trends clearly.

Room Booking Application

Java | MySQL | HTML/CSS | JavaScript

- Developed a full-stack room booking system with real-time availability tracking, intelligent conflict detection logic, and an admin dashboard for managing reservations, reducing double-booking incidents to zero.

Static Portfolio Deployment on AWS Cloud

AWS EC2 | S3 | MySQL | HTML/CSS

- Deployed a portfolio website on AWS EC2 and S3, configuring cloud infrastructure, server routing, and MySQL database connectivity gaining hands-on AWS deployment experience end-to-end

CERTIFICATIONS

- **AWS Fundamentals** - Besant Technology
- **TalentNext Java Programming** - Wipro
- **Coursera** – Introduction to HTML and CSS
